Class - 2nd (E.V.S)

Chapter - Ist - More about myself

So students in this chapter we had already discuss about yourself. In this chapter we had discussed about yourself, your school name, age, class in which you are studying, your best friends name, your favourite cartoons and more about your family and friends. So related to this chapter some questions had been given for which you have to do.

Q.1 Write 10 your favourite cartoons Name?

Q.2 Write 10 lines about yourself?

Q.3 Write 20 body parts Name?

Q.4) what is your hobbies? Write atleast 10 lines about this?

Chapter-2 Human Body

In this chapter we had seen a different parts of your body. for eg:- hair, Nose, mouth etc. The parts of our body can be divided into external organs and internal organs. External organs are those parts that can be seen from outside. Hands, eyes, legs are external organs. Internal organs are present inside the body Brain, Heart, lungs and stomach are important internal organs.

So related to this chapter few important questions had been given the following.

- Q.1) Draw an images of girl / boy and show his different body parts Name.
- Q.2) Write 20 body parts Name?
- Q.3) Write 5 point about brain functions.
- Q.4) Write 5 points about the functions of our Nose?

Chapter - 3 My Family

In this chapter we had discussed that A group of members who live in the same house and are related to each other form a family. we had also discussed the types of family

- a) Nuclear family
- b) Joint family.

Students Nuclear family is also called a small family. whereas a joint family is a big family.

A family with parents and their children is a Nuclear family. whereas a family with parents, grandparents, children, uncles, aunts and cousins is a joint family. So the questions related to this topic had been given the following.

Q.1) Draw a chart of your family's Relationships?

Q.2) Write 10 lines about your family ~~about~~ members?

Q.3) Mention in a point whether you have a Joint family or Nuclear family?

Topics

Chapter - 11 CLOTHES

So students we had already seen this chapter. we had seen that different religions from different states had different sense. So students the question arises why we need clothes? and the answer that comes in our mind is that to cover or to protect our body from heat and cold. So students we should wear a clean and proper clothes which are comfortable according to different season.

- Summer clothes :- In summer we should wear light-coloured cotton clothes.
- clothes in the Rainy season :- In this season we should wear a raincoat, caps and gumboots to protect us from Rain.
- clothes in winter :- we should wear a warm warm clothes like sweaters and all.

So the following question had been given based on this topic.

page-2

- Q-1) Write 5 lines on winter season?
- Q-2) Write five lines about your favourite clothes for which you like most?
- Q-3) Write 5 lines about the season for which you like most?
- Q-4) Draw the images of summer clothes, and rainy clothes.

Chapter - 5 - Food we eat

well in this chapter we are going to discuss based on various food related items. but before this some safety measures tips should be followed like how to wash our hands before eating foods. what kind of rules and regulations to be ~~forced~~ followed while having a food and all. As we had already discuss this chapter in the class so that we are having an idea.

- how to avoid Junk food
- how and what kind of healthy food we have to take.
- and in which position we have to seat to take our meals and all.
- So based on this chapter some questions had been given for which you have to do.

Q.1) Write five lines based on safety measures tips while having a food?

Q.2) Write atleast 5 Junk food and healthy food?
