Class - 2nd (E.V.S)

Topic :- Houses We Live In

In this topic we had seen a various types of houses. All of us need a house as you know that we feel safe and comfortable in our house. It also protects from heat, cold, rain, dust storm and stray animals. we had seen a various types of houses. Such as Tent house, Hut, Caravan, Houseboat, Igloo, Bungalow etc.

Besides this we had also seen the people who build our houses. There are many people who help in building our houses.

clike

Architect :- He makes a plan of the house.

Labourer :- He carries the building materials at the construction site.

Mason :- He builds the walls, roof and floor of the house.

Plumber :- He fixes pipes, taps and sinks.

2

Painter :- He paints the walls and doors of the house.

Carpenter :- He makes and fits doors, windows and other wooden things.

So in this chapter we had also seen about a good house. A good house should be

- It should be clean and tidy
- There should be no wastage of water and electricity.
- Proper ventilation should be there.

So related to this chapter some questions had been given for which you have to do as a homework.

Q.1 Write atleast 10 lines about your house.

Q.2 Write 5 lines on "stilt houses" in your own words.

Q.3 Write 5 lines on "A good house" in your own words.

Topic :- The world of plants.

In this chapter we had seen a various trees and plants. Students we see a variety of plants around us. Some are big and some are small. Let's see the types of plants.

- Trees :- So you already know about "trees". A very big and tall plants are called trees. It has many branches. Their roots reach deep inside the earth. They live for many years.
- Shrubs :- Some plants are smaller than trees. Their stem and branches are hard. They live for few years. eg! - sunflower plant etc.
- Herbs :- Very small plants with soft stems are called herbs. eg! - mint plant, Coriander etc.
- Climbers :- Some plants have weak stems. They need a support to stand straight. eg! - money plant.
- Creepers :- Some plants with weak stems which creep along the ground like pumpkin etc. are called creepers.

Page No - 4

Now let's see the various parts of a plant which has many parts. Like.

- Buds → These grow into flowers.
- Flowers → flowers change into fruits.
- Fruits → These contain seeds.
- leaves → leaves make food for the whole plant.
- It carries water, minerals and food to different parts of the plant.
- Roots :- They take in water and minerals from the soil.

Q.1) Draw the diagram of a plant and name the various parts of it.

Q.2) Write atleast 10 benefits of a tree.

Q.3) Write 5 lines on "shrubs".

Topic :- uses of plants.

As you know students plants are very useful to us. we get many things from plants. As you know that we eat different parts of plants as food.

- we eat roots of some plants like Radish.
- we eat stems of some plants like sugarcane.
- we eat leaves of some plants like Spinach.
- we eat fruits of some plants like mango.
- we eat seeds of some plants like peas.
- we eat flowers of some vegetables like cauliflower.

Students plants also gives us fibre. we get cotton and jute from plants. we use cotton fibres to make cotton clothes.

It also gives us wood. wood of trees like teak, sal, and deodar.

page - [6]

we had also seen more uses of plants.

Do you know students paper is made from the stem of a bamboo trees.

So students plants not only gives us different things but they also make the air fresh. They make our world beautiful.

students always remember that without plants life can not be possible.

we should take care of plants around us.

we should not write on trunk of trees.

Q.1) Do you really think that plants gives us food? then how explain it with atleast 5 lines.

Q.2) Write different uses of plants.

Q.3) what is the disadvantage of not having a plant around us?
