

Topics :-

1) Food we eat :- Well in this chapter we are going to discuss based on various food related items. But before this some measures should be followed like how to wash our hands before eating foods, what kind of rules and regulation to be followed while having a food and all. As we had already discuss this chapter in the class so that we are having an idea • how to avoid Junk food • how and what kind of healthy food we have to take • and in which position we have to seat. Questions had been given for which you have to do.
→ Write five lines based on safety measure-tips while having a food?
→ Write atleast 5 Junk food and healthy food.

2) Transport and Communication :- In this chapter we had discussed various modes of transport and the various process of communication. So transport plays a very important role in human to overcome the barrier of physical distance, on the other hand communication is the passing of information or data from one source to another. There are various modes of transport like bike, cycle, Motor cycle, Car, Truck etc. There are also a various modes of communication like, Telephone, mobile phone, e-mail etc.
→ Write 5 lines on different modes of transport
→ Write 5 lines based on Telephone Communication.

3) Water :- A water plays a very important role in our daily life. As you know that water is tasteless, transparent and inorganic. There are various ways for which we are getting water like Tube well, handpump, R.O. system, by boiling etc.
→ Draw an image which indicate how to save water.
→ Write 5 advantages of boiling water.
